Includes up to 30 minute on-location session

- 3 pose selection
- 2 - 5x7 Photographs
- 1 - 8x10 Photograph

Tips for getting great Family Pictures

1. Get a good nights sleep the day before you take the pictures to look your best.
2. Eat a light meal a couple hours before your photo shoot to avoid getting hungry or fatigued.
3. Coordinate clothing. You don't have to be "matchy, matchy", but complimentary colors do look good together.
4. Be yourself. Dress how you normally would in a casually nice outfit.
5. Wear comfortable clothing that you can stand, sit, and lay on the ground in.
6. Dress in solid colors, preferably earth tones (e.g. greens, browns, blues)
7. Black or dark clothes will make you appear "thinner", while white or light colored clothing will not.
8. Don't wear lots of shiny makeup as it will make you appear shiny.
9. Try to avoid wearing glasses if you can. It can be challenging trying to eliminate glare at times. If you like your glasses remove the lenses.
10. Location, location, location! It is up to you where you want your family pictures taken at. When considering where to take them think about: Do you want a country setting, a park, flowers, urban, architectural, rivers, weird stuff? Of course, if you can't decide I know of a few really cool places.
